B) EMAILS, CLUES, OBJECTS

	Contents	Explanation
EMAIL	<p>M01: INTRO EMAIL From: Dr. Walden Shyre Subject: This is concerning the coin</p> <p>Dear User, This appears to be a very old coin that was made in the Netherlands, in [coin_date]. It appears to be a bit misshapen. Maybe you can find some clues in the verses under the envelope flap that will help you determine the significance of this coin. Use your notepad to keep a record of your findings.</p> <p>If you get stuck, try searching around the internet - you might find something to help you on your way.</p> <p>WS</p>	<p>[coin_date]: this refers to the year on the coin. It is a randomly generated year between 1610-1619</p> <p>Verses under the envelope flap: here you will find a poem with clues</p>
OBJECT	Coin – contains a date between 1610-1619	
CLUE	<p>Verse – poem on envelope</p> <p><i>Art of imitation is profitable for some When producing counterfeits for income The years that Janssen was tried, in SUM With the year on the coin is clue number ONE</i></p> <p><i>Now, his greatest treasure you must use To see the object of his ruse With the SUM you found, you must choose Which eyes to select for the very best view</i></p>	<p>1. Add the years Janssen counterfeited (6 years) to the date on the coin</p> <p>2. Select the microscope from the Tool tab</p> <p>3. Each of the 4 digits represent one of the numbered lens on the microscope</p>
EMAIL	<p>M01: VICTORY EMAIL From: Dr. Walden Shyre Subject: Well done! Congratulations on solving my first mission! While Janssen was tried in court for counterfeiting coins, he was also credited with inventing one of the first microscopes.</p> <p>Your wit has come to pass the test. It is your patience I'll test next.</p> <p>WS</p>
